## **Council Hears** New Proposal **On Restaurants**

Also Side-Tracks Sewer Ordinance For New Measure

(By D. Kelly Scruton)

The long-awaited restaurant ordinance, one which won the approval of the Sedalia Restaurant and Tavern Owners Association, was introduced for the first time at the City Council, Monday night. The council also side-tracked the sewer ordinance introduced last week for a new one which was introduced for a first reading governing the connecting to the city sewers by persons residing outside the city limits.

The restaurant ordinance is one which takes the place of another which met with opposition from the restaurant and tavern owners last year. For several months City Counsellor Chester Wolfe has been working with J. C. McCloskey, local attorney representing the association, in drafting an ordinance which would be satisfactory to the association and to the State Board of Health.

the sanitation committee of the The sewer ordinance which was to have been read for the third time was withdrawn upon motion of Clyde Swafford, chairman of the Sanitation Committee of the council, due to change in section seven of the ordinance governing penalties for violation of certain rules.

Under new business the new ordinance was presented to the council for the first reading. It will come up for the second and third reading and final passage at the next regular meeting of the
